

# RAIL PAYOUT BOX

*\*FYI: If you do not have a Rail Payout Box the use of an oversized spinning jenny is recommended. This keeps the product off of the ground preventing possible abrasion by dirt or gravel.*

## VERSATILE MOUNTING

- Pictured above on an ATV and a Golf Cart
- Stack units to payout multiple rails at the same time

**A** **OPTIONAL SIDE HANDLES**  
Use to ease handling and maneuvering of Payout Box

**B** **CORNER BRACES**  
Inside Corner Brackets work well or you can use a steel strap

**C** **STEEL PINS**  
Use 5"(127mm) long steel pins to join units (drill appropriate sized hole for pin diameter)

**D** **PROPER BOARD HEIGHT**  
- 4"(108mm) Rail use 2" x 6" (51mm x 152mm) board  
- 5"(133mm) Rail use 2" x 8" (51mm x 203mm) board  
- 6"(159mm) Rail use 2" x 8" (51mm x 203mm) board

**E** **BASE MATERIALS**  
Use .5"(13mm) plywood along with .125"(3mm) plexiglass to help reduce friction between product and base
