

# HOTCOTE® | Hotcote® Insulator

**STRAIGHT ATTACHING INSULATED BUCKLE\***

**MINI SPOOLER\***

**JOINING BUCKLE\***

**PRE-BENT 45° ATTACHING INSULATED BUCKLE\***

Our **Hotcote® Insulator** is unlike any other of the hundreds of fencing insulators on the market, this is a world class design innovation for permanent installations of electrifiable coated wire. It doesn't break like other insulators, it's extremely strong, you could say it's solid, we believe it's at the top of the list for design, function and uniqueness!

It was developed from a customer request, to match the quality of the accessory line for Horserail® and coated wire. *It doesn't get any better than that!*

- **Safe for horses**  
No sharp edges or moving parts
- **Easy to install**  
Saves time and aggravation
- **Made of quality materials**  
Weather resistant and UV stabilized
- **Extremely strong**  
So strong that you could install posts further apart
- **Well designed and thoroughly tested**

## Click It!

Just **Click** the Hotcote® Insulator easily onto the coated wire.

## Screw It!

Position the Hotcote® Insulator on the fence post and tighten the **Screw**.  
*Do not over tighten the screw!*

## Secure It!

Position insulator and tighten screw to bring jaws together equally - to **Secure** the wire.

*Watch how the uniquely designed center opening closes around the coated wire!*

Available In:

Packaging Options:

- 25 Count with matching color, heavy duty hex head wood screws
- Contractor Packs of 250 insulators with screws

Up to a 20 year warranty

\*Hotcote® Hardware is **Double Coated** for Superior Weather Resistance:  
*E-Coat and Powder Coat*

- Hotcote® Insulators are not recommended for use with smooth wire, tape or polywire.
- **WARNING: Only for use with low-impedance electric fence energizers!**
- **Always use an adequate number of electric fence warning signs and make sure to attach them securely.**
- **It's essential to keep fence line clear of all debris. Please do not burn!**
